

# Meet the Headache Center Team

## Neurologists

Jared Pomeroy, MD and James Tucci, MD are both neurologists who are experts in the treatment of migraines. You will meet with one of them for your initial consult visit, where they will create a comprehensive treatment plan with you. Dr. Pomeroy also performs multiple procedures as deemed appropriate for your treatment plan. They will continue to oversee your care as you continue with the Headache Center.

**Jared Pomeroy, MD**  
**Medical School:** West Virginia University School of Medicine  
**Neurology Residency:** University of Maryland  
**Headache Fellowship:** Thomas Jefferson University

**James Tucci, MD**  
**Medical School:** Robert Wood Johnson Medical School  
**Neurology Residency:** Walter Reed National Military Medical Center

## Nurse Practitioners

Our two highly trained nurse practitioners will have an integral part in your care. They will be completing all of your follow-up appointments and potentially performing procedures if deemed appropriate for your treatment plan. They will assist in coordination of your care with the entire multidisciplinary team.

**Aaron Emmons, A-GNP**  
**Bachelor's Degree:** Samford University  
**Master's Degree:** South University

**Kristi Stoutjesdyk, FNP**  
**Bachelor's Degree:** Grand Valley State University  
**Master's Degree:** Michigan State University

## Psychologist

Grant Heller, PhD is a licensed clinical psychologist who has clinical interests including behavioral treatment of headache, stress management and coping with chronic health conditions. He is highly trained in pain psychology and will take an individualized approach to treating the psychological pain and stressors that come with a disease such as migraines. You will potentially see him for your first appointment and then for follow-up if deemed appropriate.

**Grant Heller, PhD**

**Master of Science:** University of Wisconsin Oshkosh  
**Master of Arts and Doctorate:** University of Detroit Mercy  
**Post-Doctoral Fellowship:** Michigan State University at Genesys Regional Medical Center

## Medical Assistants

The medical assistants are key contributors to your plan of care. They will be your first point of contact at every office visit and for every call to the office, where they will assist in coordination of your care with the multidisciplinary team. They will also assist you in scheduling your appointments, and will assist the providers as needed in your care.

**Krissy Bursley, CMA**

**Holly Castle, CMA**

**Rebecca Cook, CMA**

**Jason Klobucher, RMA**

---

## Infusion Nurses

The Headache Center has highly trained nurses who will be administering any infusions your provider may order for you. All of these outpatient infusions will be completed at our infusion center in our office on the East Beltline and treatment can range from one to five days.

**Kasie Holderman, RN, CNRN**  
RN from Montcalm Community College

**Yen Davis, BSN, RN, PCCN**  
BSN, RN from Michigan State University

---

## Nurse Educator

Our nurse educator will assist in the communication and coordination of your care with the multidisciplinary team throughout your time at the Headache Center. She will be your first point of contact once your initial consult appointment is made. She will be teaching our educational class and will complete any follow-up for further education on lifestyle modification as needed.

**Stephanie Wilson, BSN, RN**  
BSN, RN from Michigan State University
